

October 16, 2013

To Clayton Ellis,

On behalf of the Wichita Public Schools, I and Karla would like to thank you for a great presentation at our district in-service for our middle and high school PE teachers. At times this can be a difficult group to work with in that they are not always willing to participate in new physical activities. However, your presentation kept each and every one of them actively engaged and I truly believe that they took a lot of information and ideas away from the day. In fact I went to observe one of the middle school teachers and she was teaching an activity that you had taught them. I also had a lot of positive feedback from other teachers that your presentation was great and that it had given them a lot of new activities. It is so easy for us to get stuck in our daily routines but your presentation helped to open the door for some new ideas to be unleashed. Again thank you for coming to Wichita.

Merri Copeland and Karla Stenzel
